

QUALITY POLICY

BarrelEye Downhole Tools Inc. is an **innovative** company that is continually looking to the future while fostering a **solid** partnership with our Clients and Personnel through our Quality Management System and Health, Safety and Environmental Program. **BarrelEyes'** Top Management remains aligned with the **strategic** objectives while providing **leadership** for and **commitment** to the following:

- ✚ **Continual Improvement** across all aspects of the Quality Management System, by developing and implementing meaningful and measurable Key Performance Indicators (Quality Objectives)
- ✚ **Client Satisfaction**, by understanding their current and future needs to meet or exceed their requirements
- ✚ **Relationship Management** with our Personnel, Clients, and Vendors to provide a mutually beneficial system that creates value and encourages a high-level of communication
- ✚ **Organizational Knowledge**, by managing our systems that build and protect the skills and knowledge of our Personnel to ensure the successful future of our Organization
- ✚ **Dependability** of our Products and/or Services through the consistency of Personnel training, Vendor vetting, and appropriate infrastructure
- ✚ **Responsibility** to meet all Social, Environmental, Regulatory and Legislative requirements

BarrelEye will continue to grow while evolving with our Management System(s), Personnel and Clients. Measuring all aspects of our effectiveness, reliability, repeatability, and value to ensure our Policies, Processes and Procedures remain pertinent to our business.
